ORDER FORM

It is up to each customer to pick her own size. Attached is a size chart from the manufacturer of the dresses the bride has chosen. Size charts vary from bridesmaid company to company and often are different than regular sizes you are used to wearing. Whenever possible, try on the sample size to see if it is approximately the correct size you would want to order or if it is too large or too small. Keep in mind that whatever sizes your order the chart indicates. If you are over 5'8" the manufacturer recommends extra length.

As measurements are being taken by either our store or elsewhere please observe and verify them to make sure that you agree with them. Feel free to double-check us by re-measuring yourself while you are here if you disagree.

INSTRUCTIONS FOR THOSE GETTING MEASUREMENTS ELSEWHERE

Please do not pull on the tape measure too tight or too loose just right. Repeat all measurements 2 times just to be sure.

Bust: Wear a good bra. If you plan on wearing a padded bra with the garment, please measure yourself with that bra on. Measure across the broadest part of the back and across the tips of the front.

Waist: Measure the "natural waist," the leanest part of the abdomen, usually around the navel.

Hips: The part we need measured is the broadest part of your bottom, that is, your lower hip, which is usually about 9" to 9 1/2" below your waist.
